

KTC Climate Emergency Working Group

WG Report for Town Council Meeting 2-12-21

The latest CE Roadmap group meeting (16-11-21) discussed the Plant-A-Tree initiative and a press release has now been released. Members of the group will also continue discussions with relevant parties about planting commemorative trees in Castle grounds and in Abbey Fields.

It was also agreed that the chair would submit a pared-down motion to Town Council requesting engagement with the process of designing future residential developments in Leyes Lane and Rouncil Lane – see later agenda item.

Then group agreed to lend support to affiliate with networks: ‘StayGreen-Sustainable Towns and Villages’ and ‘Low Carbon Warwickshire Network’.

The group still aims to put on a winter public webinar on domestic Solar Panels run by an external expert/consultant.

Other items included:

- A review of carbon footprint calculators with aim of promoting ‘carbon pledges’;
- Making Jubilee House zero carbon;
- Raising awareness in the town about a scheme (linked to Coventry City of Culture) to encourage ‘windows’ with environmental messages;
- Production of Newsletter #5 before Christmas.

Agendas, notes and action points are available to TC members on request.
