

Grit Bin Update 06/12/23

Following the Audit of the town's Grit Bins in July 2023 several actions were agreed. These have now all been completed:

- Abbey Hill Grit Bin has been removed and returned to the KTC for re-use. (Moved to Lunn Ave)
- Beehive Hill Bin was missing and has been removed from the WCC Gritting Portal.
- 5 bins have had the hedging trimmed to allow easier access.
- 2 bins have been installed and filled (Clarkes Bridge and Lunn Avenue)
- 3 existing bins, missing from the WCC gritting portal, have been added to the Portal and the grit run schedule.
- 3 bins have been updated in the portal and grit run schedule to reflect better their location.
- 1 bin has been cleaned.
- 14 bins required no action.
- Stickers have been designed, agreed with WCC, produced, and stuck to the bin lids. See wording below:

New Bin Requests:

- New bin has been requested for Lulworth Park. WCC have undertaken a site survey and have confirmed that it meets the WCC criteria and once procured and sited it will be added to the WCC Grit run schedule. It has been agreed that the Bin we have in the Council garage is suitable and arrangements will be made to deliver it to site and fill with salt from the bags we have at Jubilee House, as a temporary fix, pending filling by WCC. Residents have agreed spread the salt as required once installed.
