ENCLOSURE 13

Kenilworth Town Council
BVEF Report
27th February 2025

Visit Kenilworth and Trail Leaflets: the trails have been reprinted and we now need a small group of volunteers to disseminate these before the season begins, and welcome councillors who wish to assist. Please let Alix and Miles know if you are available for a few hours in March.

Digital Noticeboard: The group recommend that we ask for quotes covering the total installation and service of hardware and software, also covering planning requirements and electricity supplies from National Grid and these are being put out to providers.

Local Engagement:
We have met with Old Town Events to discuss opportunities and how the Town Council can support.

Met with Coventry and Warwickshire Growth Hub to discuss potential collaboration opportunities as well as visiting local businesses. The Growth Hubs are willing to run a round table session in Kenilworth and leverage their network to engage local businesses and provide links into other teams like the WCC Sustainability Team.

The meeting also explored strengthening KTC's webpage, including potential backlinking to relevant support agencies to enhance visibility and access to business resources.

The group will be meeting in March to agree next steps.
