Trends and Targets per week, Kenilworth District.

6th January – 12th January

This week Officers from Warwick/Leamington and Kenilworth SNTs, with the assistance of numerous Special Constables, have been conducting patrols until the early hours of the morning. Patrolling main access routes into the towns and areas which have succumbed to Burglaries and Theft of Motor Vehicles recently. The objective being to disrupt and deter Criminals from committing crimes in the areas. This was high visibility patrols and seems to have been a success.

We have received numerous reports in town of a group of youths causing ASB issues and criminal damage. We have CCTV footage of the group and are working with the school to identify them, 3 have been identified and do not live in Kenilworth but attend the school.

Once identified they will be served Community Protection Notice Warnings. These are notices which points out the behaviour and the consequences should they be identified conducting similar behaviour across the district (fines/arrests etc).

ENCLOSURE 21

13th January 2025 – 19th January 2025

Two Burglaries that were reported to Police as being a rear window smashed and searches made for Jewellery, it would appear that it was the same group of offenders and these are being investigated by Detectives in Leamington.

ASB continued to be an issue in the week, where a group of youths have used the alleyways around the St Johns area (Queens Road, Barrow Road) to cause disturbances. As there is a budget for ASB prevention it has been requested that the Community Wardens attend the area from approx. 5pm onwards on a Friday as this is when a majority of the issues take place.

Last week a youth was identified and a Acceptable Behaviour Contract was signed by himself and his parent. He was from Warwick.

20th January 2025 – 26th January 2025

Following the serving of an ABC (Acceptable Behaviour Contract) by the Police it has shown to have reduced amount of Anti-Social Behaviour being reported in the area.

We are liaising with British Transport Police as the main instigators are using the rail network to travel to cause issues and not paying for travel.

Again, requests have been made to the Council in regards to using some of the ASB funds to carryout an assessment of ASB hotspots and how the area can be assessed to reduce the amount of ASB. Community Wardens will again be in Kenilworth on Friday in the late afternoon and early evening.

27th January 2025 – 2nd February 2025

Safer Neighbourhood Team officers attended the Burglary Business where a male was seen to be inside the property by a cleaner. Upon attendance and reviewing the CCTV it is thought that the male inside has uses the rail network by day and at 'closing times' of businesses, looks for insecure properties to stay the night inside, the male was seen to be inside for approx. 1 hr before being discovered.

A further keyless car theft was reported in Kenilworth, tracker on the vehicle located it in Coventry where it was on false plates, it has been recovered for forensic opportunities.

Staff from SNT this week have provided a talk with Nationwide building society regarding Fraud incidents and what to look out for, keeping themselves safe and knowing what to trust.

3rd February 2025 – 9th February 2025.

Burglary Dwelling was reported on Leamington Road where x2 offenders were disturbed after breaking a window and Police Units searched the rear of the property where the offenders made of to, however were no trace.

Engagement continued by SNT staff attending a local Cub Group and a Primary school to celebrate 'People who help us' projects where children learn about Police roles and

responsibilities and that we are not to be feared. Children had fun detecting clues using blacklight torches and viewing the Public Order Police Van.

Good news for Police staff at Kenilworth, it has been confirmed that Kenilworth will have an additional Police Officer joining in March, and PCSO MORGAN has returned from her month long attachment at Leamington where she was part of the Home Office 'Op Resolve' programme targeting ASB in specific identified areas.

10th February – 16th February 2025.

The Burglary Dwelling reported is connected to the Burglary reported on the previous weeks figures as it backs onto the attacked property on Leamington Road, Kenilworth.

In this case the victim has returned from holiday to find his property broken into, it is believed this property was attacked last week.

Officers from SNT have been carrying out Operations around the area involved in the supply and production of cannabis. These are not little 'grows' being manufactured/grown for medical/personal purposes.

These are 'grows' that are on an industrial level using thousands of pounds worth of equipment with 'yields' (the amount of estimated profit obtained) being in tens of thousands of pounds.

The people organising these Production sites have connections to, Modern day Slavery, People Trafficking and Serious Organised Crime Groups.
