ENCLOSURE 5

Kenilworth Revealed Task & Finish Group update

The AFAR (Abbey Fields Augmented Reality) project has now been rebranded as Kenilworth Revealed: The Secrets of the Abbey. The project's Logo shown in Figure 1.

Figure 1: KR logo

The contract with Zubr has been signed and two meetings held with Zubr on 20 January and 18 February. The project's Steering Committee also met on 31 January to collate all the material related to the Abbey and its surroundings. This was given to Zubr at the meeting on 18 February. It is expected a draft of the computer model will be ready by the end of April.

A Press Release has been prepared about the signing of the contract. This will be released on 21 February.

A design for the geolocation plaques has been completed and permission is currently being sought to install these in St Nicholas church yard and Abbey Fields.

A presentation about the project was given by Jo Randall and Alan Chalmers at the recent SparkLite event in Leamington. Organised by Warwick District Council, SparkLite brings together creative industries from across the region.
